

C WHAT THEY DO AFTER

They confirm, and the agent **reports the deviation to the process owner and triggers the Action Flow** (human-in-the-loop / write-back) — recorded for audit and tracked against the KPI.

ment of a decision they act on its **evidence** — the case's path — which makes the agent's to action. Concretely, that delivers:

Possible uses

BEYOND THIS EXAMPLE

- > **P2P**: blocked invoices & payment-term breaches (DPO).
- > **O2C**: disputes, blocked / delayed orders (DSO).

users **in their working**
a new tool, login or training.
